

Start: 1949 L – Stop: 2010 L

Bulletins

1.1 OVERVIEW.

Thank-you Bob. Good evening, to the net. During the hot wash that followed our recent hurricane exercise, the exercise participants identified message traffic handling as one of the areas that future training activities should focus on. So tonight, I will be sending the net two Radiograms. The first will be a standard ARRL® radiogram format and the second will be an ARRL® radiogram that contains an ICS 213. After I send the two messages, I will poll each station in the net and request confirmation that they either received each of the messages or they need part of the message resent.

Do I have any questions before I begin?

ACTION - PAUSING FOR QUESTIONS

So, without further delay, all stations standby to receive traffic.

ACTION - Send messages

I will now poll each station in the net and request confirmation that they either received the bulletin or needed part of the message resent.

ACTION – Poll each station and request confirmation. Document results in training log

1.2 QUESTIONS OR COMMENTS

I'd like to pause here for a minute and ask if anyone has a comment or question about tonight's presentation. If you have a comment or question, please provide me with your call sign, slowly, clearly, and phonetically so I don't make a mistake when I respond. And then ask your question or provide me with your comment.

This is WA1RYQ.

ACTION - PAUSING FOR QUESTIONS

That's all I have for this week's training session. I'll turn it back to Net Control.

1.3 QUESTIONS AND COMMENTS.

The following table contains a summary of the comments and questions provided by the membership during the presentation.

No.	Call Sign	Comments	Response
1	KC4SXO	Reading speed on first message was good. You sped up on the second message but was still able to copy.	
2	KM4DYD	Recommend that we practice message exchanges and incorporate a few wrinkles to keep us sharp.	
3	WR6N	Does the XRAY count as a group in the message count?	Yes, it does count as a separate group.
4	WR6N	On the second message you included a time; however, on the first message you did not. Is that correct?	You are correct. I excluded the time on the first message on purpose.
		No More Questions or comments
