Net Control Business Script and Net Report

1.1 BUSINESS SCRIPT DIRECTIONS

Please follow the directions listed below when using the script.

a. The text within quotes should be broadcast to the net as written.

b. Notes within the script provide additional information to the NCS. They are displayed in **Blue** and should not be broadcast to the net.

c. The place holders <NCS FCC Call sign>, <*FCC Call sign*>, and <*Name*> should be replaced with the FCC Call Sign and name of the individual identified in the script.

d. The **ACTION** statements within the script describe the actions to be performed by the NCS or the station called by the NCS. They are displayed in **Red** and should not be broadcast to the net.

1.2 BUSINESS SCRIPT

The following business script was used during the PinCo ACS Winlink Training Net that took place on February 15th, 2023.

1.2.1 Net Announcement.

"Good evening to the net. Hopefully, everyone has had an opportunity to download the detailed Winlink Training Bulletin and Incident Action Plan, that was posted to the PinCo ACS Web site."

"As a reminder, the information posted on the website contains the information needed to support the net. Specifically, it will provide you with the training net objectives; network type, date, time, and duration of the net; a description of net activities; the

location of any additional material needed to support the net; and detailed instructions for performing planned net activities."

"First I want to review the information provided in the Incident Action Plan."

ACTION – *Brief the Net on the contents of the ICS 204 and ICS 205*

"Before we get started with the business of the net, do I have any questions or comments about tonight's activities, the Winlink Training Bulletin, or the information presented in the ICS 204 or ICS 205?

ACTION – *Acknowledge comments and questions.*

1.2.2 Winlink Check-in Form.

The NCS will identify the recipients of the check-in message and then request that each net participant notify net control when they are ready to send their message to the net.

"Our first task this evening is the Winlink Check-in form. Each net station is requested to create a Winlink Check-in message and then deliver a copy of the message to the NCS and the PinCo ACS Admin Officer."

"All stations, please notify net control when you are ready to deliver your Winlink Check-in message to the net. This is <NCS FCC Call sign> standing-by."

ACTION – *Wait for each net station to notify the NCS that they are ready to send Digital traffic.*

"This is <NCS FCC Call sign>, <FCC Call Sign> please send your digital traffic and notify net control when the digital exchange is complete."

ACTION – *Wait for <FCC Call Sign> to notify Net Control*

1.2.3   Winlink ICS 213RR Resource Request Message.

Assist net participants with the steps needed to create an ICS 213RR Resource Request message that has a precedence of IMMEDIATE.

"During this segment of the net, the NCS will send each net participant an ICS 213 General Message. Once you have received the message, each net participant will need to create a new ICS 213RR Resource Request message containing the requested information."

*"It is important that the message you generate is properly formatted and that the message is assigned a precedence of **IMMEDIATE**."*

"Do I have any questions before we proceed?"

***ACTION** – Acknowledge comments and questions.*

"Not hearing any more questions, I will now send my message traffic to all net participants. Please stand by while net control sends its digital traffic."

***ACTION** – NCS Sends Digital Traffic*

"This is <NCS FCC Call sign>, the net control station for the PinCo ACS Winlink Training net. I have completed sending my digital traffic. Each net station will need to open a new Winlink session and download all pending messages. Please notify Net Control when you can acknowledge receipt of the ICS 213 General Message. This is <NCS FCC Call sign> standing-by."

***ACTION** – Wait for each net station to Acknowledge message receipt.*

"Please take a few minutes to read the message. Once you have had a chance to digest the information, please contact net control if you have any questions about how to generate the requested ICS 213RR message."

"If you are comfortable with the request, please notify net control when you're ready to send your digital traffic. This is <NCS FCC Call sign> standing by."

ACTION *– Wait for each net station to notify the NCS that they are ready to send Digital traffic.*

"This is <NCS FCC Call sign>, <FCC Call Sign> please send your digital traffic and notify net control when the digital exchange is complete."

ACTION *– Wait for <FCC Call Sign> to notify Net Control*

1.2.4 Winlink Check-out Form.

The NCS will identify the recipients of the check-out message and then request that each net participant notify net control when they are ready to send their message to the net.

"We have one remaining task for tonight's net. I'll ask each net participant to deliver a Winlink Check-out message to the net. Once that is complete, we'll secure the net."

"So, let's get started. Each station is requested to create a Winlink Check-out message and deliver the message to the NCS and the PinCo ACS Admin Officer. Be sure to include your Winlink Express and template version numbers in the comment section of the message."

"All stations, please notify net control when you are ready to deliver your Winlink Check-out message to the net. This is <NCS FCC Call sign> standing-by."

ACTION – Wait for each net station to notify the NCS that they are ready to send Digital traffic.

"This is <NCS FCC Call sign>, <FCC Call Sign> please send your digital traffic and notify net control when the digital exchange is complete."

ACTION – Wait for <FCC Call Sign> to notify Net Control

1.2.5 Net Shutdown

a. Once each Winlink Check-out message has been received, the NCS will announce the following information to the Net.

"That completes tonight's planned training activities."

b. The NCS will Deactivate the PinCo ACS Winlink Training Net in accordance with the procedure documented on the PinCo ACS Web site.

c. Each net participant is requested to send their ICS 214 and ICS 309 documents to the NCS by 1200 local on the day following the Winlink net. At that Time, the NCS will finalize the net report and send a Net Report Message to the net manager.

1.2.6 Questions and Comments

The following table contains a summary of the comments and questions provided by net participants at the conclusion of the net.

No.	Call Sign	Comments	Response
		No More Questions or comments	

1.3   NET REPORT

The PinCo ACS Winlink Training Net was announced at 1930 hours local time on February 15th, 2023. The net was shut down at 2019 hours local time. The net successfully completed five of five planned activities. Overall, the message formats and data content were very good. The net control station will review each of the messages generated during the net and provide feedback to all participants.

a.   Four of the six net participants successfully delivered all requested net messages.

b.   One net participant was not yet Winlink capable and monitored the net.

The areas that need additional attention during future nets are listed below.

a.   Assigning Message Precedence: Only two of the six net participants successfully assigned an IMMEDIATE precedence to their ICS 213RR.

b.   Formatting Exercise messages: Minor issues were noted on the ICS 213RR.

The Net Report message shown in Figure 1 was sent to the PinCo net manager via Radio Relay International (RRI) on Friday February 17th, 2023. The E-mail address and phone number of the net manager has been redacted from the figure.

1.3.1 Net Control Message Traffic

The message shown in Figure 2 was sent by Net Control to each network participant.

General Message (ICS 213) PinCo ACS Winlink Training Net		
1. Incident Name: EXERCISE 20230215 Winlink		
2. To (Name/Position): PinCo ACS Winlink Training Net		
3. From (Name/Position): Mike H Drake / PinCo ACS Training Officer		
4. Subject: EXERCISE P/ Winlink ICS 213RR	5. Date: 2023-02-15	6. Time: 19:50

7. Message

EXERCISE

Winlink ICS 213RR form:

For this exercise, assume that you have been assigned to an evacuation shelter during a simulated emergency activation.

a. Scenario:

1. Net Control Station: WA1RYQ
2. Assignment: Gibbs High School

(a) Tactical Call Sign: Available in the PACS Communications plan.
(b) Location: Enter the Street address for the delivery location.

3. Shelter Administrator: MONTGOMERY SCOTT
4. Shelter Manager: BENJAMIN SISKO
5. Incident Name: EXERCISE 20230215 Winlink
6. Group Name: PinCo Winlink Training Net

b. Activities:

1. The Shelter Administrator notifies you that the following material is needed to support the projected head count at your shelter. The material is needed by 10PM local and should be delivered directly to your shelter location. The priority of this request is URGENT.

(a) 250 Meals ready to eat
(b) 20 Boxes of toilet paper, qty ten rolls per box
(c) 250 Bottles of drinking water, 16oz each

2. Use the instructions posted on the Pinellas ACS Website to create an ICS 213RR.
3. Before the message can be sent, the Shelter Administrator must approve the request. For this exercise, assume that you have received approval for the request.
4. Send the ICS 213RR to the Net Control Station and a copy to the Pinellas ACS Admin Officer (PACS-ADMIN).

EXERCISE

8. Approved by: Michael H. Drake   Position / Title: PinCo ACS Training Officer
