

Net Control Business Script and Net Report

1.1 BUSINESS SCRIPT DIRECTIONS

Please follow the directions listed below when using the script.

- a. The text within quotes should be broadcast to the net as written.
- b. Notes within the script provide additional information to the NCS. They are displayed in **Blue** and should not be broadcast to the net.
- c. The place holders **<NCS FCC Call sign>**, **<FCC Call sign>**, and **<Name>** should be replaced with the FCC Call Sign and name of the individual identified in the script.
- d. The **ACTION** statements within the script describe the actions to be performed by the NCS or the station called by the NCS. They are displayed in **Red** and should not be broadcast to the net.

1.2 BUSINESS SCRIPT

The following business script was used during the PinCo ACS Winlink Training Net that took place on March 1st, 2023.

1.2.1 Net Announcement.

“Good evening to the net. Hopefully, everyone has had an opportunity to download the detailed Winlink Training Bulletin and Incident Action Plan, that was posted to the [PinCo ACS Web site](#).”

“As a reminder, the information posted on the website contains the information needed to support the net. Specifically, it will provide you with the training net objectives; network type, date, time, and duration of the net; a description of net activities; the

location of any additional material needed to support the net; and detailed instructions for performing planned net activities.”

“First I want to review the information provided in the Incident Action Plan.”

ACTION – *Brief the Net on the contents of the ICS 204 and ICS 205*

“Before we get started with the business of the net, do I have any questions or comments about tonight’s activities, the Winlink Training Bulletin, or the information presented in the ICS 204 or ICS 205?”

ACTION – *Acknowledge comments and questions.*

1.2.2 Winlink Check-in Form.

The NCS will identify the recipients of the check-in message and then request that each net participant notify net control when they are ready to send their message to the net.

“Our first task this evening is the Winlink Check-in form. Each net station is requested to create a Winlink Check-in message and then deliver a copy of the message to the NCS and the PinCo ACS Admin Officer.”

“All stations, please notify net control when you are ready to deliver your Winlink Check-in message to the net. This is <NCS FCC Call sign> standing-by.”

ACTION – *Wait for each net station to notify the NCS that they are ready to send Digital traffic.*

“This is <NCS FCC Call sign>, <FCC Call Sign> please send your digital traffic and notify net control when the digital exchange is complete.”

ACTION – *Wait for <FCC Call Sign> to notify Net Control*

1.2.3 Winlink Field Situation Report.

Assist net participants with the steps needed to create a field Situation Report message that has a precedence of **PRIORITY**.

*“During this segment of the net, the NCS will send each net participant an ICS 213 General Message. There are two parts to the message and an attached photograph. Once you have received the message, each net participant will use the information in PART I of the message to create a **Winlink Field Situation Report** that contains the requested information. We’ll discuss PART II of the ICS 213 after we finish exchanging the Field Situation Reports.*

“Do I have any questions before we proceed?”

ACTION – Acknowledge comments and questions.

“Not hearing any more questions, I will now send my message traffic to all net participants. Please stand by while net control sends its digital traffic.”

ACTION – NCS Sends Digital Traffic

“This is <NCS FCC Call sign>, the net control station for the PinCo ACS Winlink Training net. I have completed sending my digital traffic. Each net station will need to open a new Winlink session and download all pending messages. Please notify Net Control when you can acknowledge receipt of the ICS 213 General Message. This is <NCS FCC Call sign> standing-by.”

ACTION – Wait for each net station to Acknowledge message receipt.

*“Please take a few minutes to read the message. Once you have had a chance to digest the information, please contact net control if you have any questions about how to generate the requested **Field Situation Report** message.”*

"If you are comfortable with the request, please notify net control when you're ready to send your digital traffic. This is <NCS FCC Call sign> standing by."

ACTION – Wait for each net station to notify the NCS that they are ready to send Digital traffic.

"This is <NCS FCC Call sign>, <FCC Call Sign> please send your digital traffic and notify net control when the digital exchange is complete."

ACTION – Wait for <FCC Call Sign> to notify Net Control

1.2.4 ICS 213 General Message with Photograph

The NCS will assist net participants with resizing and attaching a photograph to a new ICS 213 message.

*"Now that we have completed exchanging **Field Situation Report** Messages, we are ready to proceed to the tasking identified in PART II of the ICS 213 generated by the NCS. Each station will need to save on their local computer a copy of the picture attached to the ICS 213 message. Once the picture is saved, you will need to create a new ICS 213 and attach the picture to the new message. The picture distributed by the NCS is 50 Kbytes in size. Before you sent your ICS 213, you will need to resize and reorient the picture."*

"Do I have any questions before we proceed?"

ACTION – Acknowledge comments and questions.

"All stations, please notify net control when you are ready to deliver your digital traffic to the net. This is <NCS FCC Call sign> standing-by."

ACTION – *Wait for each net station to notify the NCS that they are ready to send Digital traffic.*

“This is <NCS FCC Call sign>, <FCC Call Sign> please send your digital traffic and notify net control when the digital exchange is complete.”

ACTION – *Wait for <FCC Call Sign> to notify Net Control*

“Each net station will need to open a new Winlink session and download all pending messages. Please notify Net Control when you can acknowledge receipt of the Field Situation Report and the ICS 213 General Message. This is <NCS FCC Call sign> standing-by.”

ACTION – *Wait for each net station to Acknowledge message receipt.*

1.2.5 Winlink Check-out Form.

The NCS will identify the recipients of the check-out message and then request that each net participant notify net control when they are ready to send their message to the net.

“We have one remaining task for tonight’s net. I’ll ask each net participant to deliver a Winlink Check-out message to the net. Once that is complete, we’ll secure the net.”

“So, let’s get started. Each station is requested to create a Winlink Check-out message and deliver the message to the NCS and the PinCo ACS Admin Officer. Be sure to include your Winlink Express and template version numbers in the comment section of the message.”

“All stations, please notify net control when you are ready to deliver your Winlink Check-out message to the net. This is <NCS FCC Call sign> standing-by.”

ACTION – *Wait for each net station to notify the NCS that they are ready to send Digital traffic.*

“This is <NCS FCC Call sign>, <FCC Call Sign> please send your digital traffic and notify net control when the digital exchange is complete.”

ACTION – *Wait for <FCC Call Sign> to notify Net Control*

1.2.6 Net Shutdown

- a. Once each Winlink Check-out message has been received, the NCS will announce the following information to the Net.

“That completes tonight’s planned training activities.”

- b. The NCS will Deactivate the PinCo ACS Winlink Training Net in accordance with the procedure documented on the PinCo ACS Web site.
- c. Each net participant is requested to send their ICS 214 and ICS 309 documents to the NCS by 1200 Hrs local on the day following the Winlink net. At that Time, the NCS will finalize the net report and send a Net Report Message to the net manager.

1.2.7 Questions and Comments

The following table contains a summary of the comments and questions provided by net participants at the conclusion of the net.

No.	Call Sign	Comments	Response
		No More Questions or comments	

1.3 NET REPORT

The PinCo ACS Winlink Training Net was announced at 1930 hours local time on March 1st, 2023. The net was shut down at 2040 hours local time. The net successfully completed five of five planned activities. Overall, the message formats and data content were very good. The net control station will review each of the messages generated during the net and provide feedback to all participants.

- a. Four of the eight net participants successfully delivered all requested net messages.
- b. Two net participants were not yet Winlink capable and monitored the net.

The areas that need additional attention during future nets are listed below.

- a. Assigning Message Precedence: Net participants are still having difficulty assigning message precedence to ICS 213 messages.
- b. Communications Log – ICS309: Several members need additional practice creating this form.
- c. JPEG Attachments: All net participants successfully attached the requested JPEG to an ICS 213; however, the picture size and orientation was not always consistent with the requested parameters.

The Net Report message shown in Figure 1 was sent to the PinCo net manager via Radio Relay International (RRI) on Thursday March 2nd, 2023. The E-mail address and phone number of the net manager has been redacted from the figure.
